AS COMPLICATED AS EVER.

THE MICHIGAN CENTRAL NOW HAVING TROUBLE.

Their Switchmen and Engineers Strike, and Later They Return to Work—The Burlington Strikers Want Arbitration. Young Logan's Bravery—Labor Notes.

CHICAGO, April 4.—The strike situation remains as complicated as ever. The Burlington officials savagely declare that they will fight until doomsday rather than give in. The regular union switchmen of the Michigan Central yards did not report for duty this morning. The engineers were at their posts however, and took out their machines. When they saw that the regular switchmen were not at work they ran their engines back into the round house and left them there. This move comprised the whole switching force of the yards. The officials of the road immediately called upon a force of men gathered from points along the road outside the city, numbering about sixty. These men, it was claimed, are all experienced engineers, firemen and switchmen and would do whatever they were asked to do in the way of handling freight.

The new force of men which the Michigan Central officials have counted upon to replace the striking yard crews, are from Jackson, Mich. They will not go to work. They claim they were not told the real situation when they were brought here, and that they cannot take the place of the strikers, being Brotherhood men themselves. As soon as they saw the condition of things in the Michigan Central yards, they refused to man an engine and up to a late hour not a car had been moved in the yards.

A number of the new men left the yards for the general headquarters of the Brotherhood at the Grand Pacific to have a consultation with Chairman Hoge regarding the situation.

The Michigan Central officials last night made application to the police authorities for protection, and this morning one hundred special police were sworn in and given in charge of the chief of railroad police.

The Michigan Central has issued a notice to all connecting roads and to its principal shippers that until further notice it cannot receive cars or freight. The striking employees of the company are now in consultation with Chairman Hoge, of the Burlington grievance committee, at the Grand Pacific.

LATER.—The Michigan Central employees have decided to return to work and to handle Burlington cars and freight.

The Santa Fe's switchmen and firemen at Kansas City quit because the company is handling Burlington cars.

The St. Paul road ordered its switchmen to return to work to-day, or be finally discharged.

An Effort Toward a Compromise.

CHICAGO, April 4.—An effort toward a compromise of the strike on the Chicago, Burlington & Quincy was made Monday evening by the Brotherhood of Engineers and Firemen. A card embodying a concise statement of the situation from the men's standpoint, but giving no new facts, was issued by them. It is addressed "To the Public," and signed by S. E. Hoge on behalf of the engineers, and J. H. Murphy for the firemen. The meat of the document is the concluding paragraph, which involves a fresh offer of arbitration, this time on an entirely new basis. The idea is that the arbitrators, instead of coming partly or wholly from outside roads or other professions, be selected from among the Burlington's own employees.

The document says in this connection, that if the Chicago, Burlington & Quincy company is satisfied with the present condition of affairs, "it has but little care for either the business or the lives of the public. We stand, as we have stood all the time, ready to submit our case to a board of fair arbitrators, and we believe such a board can be chosen from the railroad employees of this company." An offer is also made to submit the trouble to three railroad presidents or general managers. Marvin Huggitt, president of the Chicago & Northwestern, is named as a man who would be an acceptable arbitrator to the Brotherhood, the Burlington company to name a second arbitrator, who in common with Mr. Huggitt should choose the third.

John A. Logan, Jr., Under Fire.

YOUNGSTOWN, O., April 4.—John A. Logan, Jr., with Sheriff Warnock, of New Castle, and a son of the sheriff, successfully held at bay 300 infuriated Italians and Swedes yesterday at Carbon. Logan is manager of the Carbur limestone quarries. A reduction of wages went into effect yesterday, and was accepted by the men at one quarry, while those at the other two quarries struck. At noon the strikers, accompanied by a number of employees at Green's limestone quarry, where a similar reduction was made, started in a body to drive out the men who had gone to work. They were armed with revolvers, knives and clubs.

Logan, with Sheriff Marnock and his son, intercepted the mob before it reached the quarry, and warned the men that further approach would be resisted by force. The warning was not heeded, and Logan and his party fired over the heads of the rioters. The fire was returned and a fusillade followed which ended in the retreat of the mob. Only one man was hurt, an Italian. Six of the ringleaders were arrested and others will be locked up to-day. During the riot an Italian crept up behind Logan and was about to run a knife into his back, when the sheriff disarmed him.

Thomas B. McGuire Interviewed.

AMSTERDAM, N. Y., April 4.—Thomas B. McGuire, of the general executive board of the Knights of Labor, has been in town for the past week. Meeting him last evening, a United Press reporter asked: "What do you think of the railroad troubles in the west?" "The Chicago, Burlington & Quincy engineers are virtually beaten," Mr. McGuire

replied, "And there is no use in their prolonging the conflict. It is the Knights of Labor who has beaten them. Our people have been getting even with the Brotherhood for its course in the southwest and Reading strikes. We could have beaten the road in the southwest had it not been for the Brotherhood. For a number of days not a wheel turned on the road; the Brotherhood treated us in the same way during the Reading strike. Powderly's letter to Arthur at the opening of the Chicago, Burlington & Quincy strike was a scorcher, by the way."

"It did not seem to have the effect of keeping the knights from helping the company, despite Mr. Powderly's appeal to them to remain neutral," said the reporter.

"No, it was a request, not an order. Had it been an order, none of our men would have taken an engine. The Brotherhood can now see the result of holding aloof from the Knights of Labor. Their motto has been, 'No entangling alliances.' I guess they see now that an 'entangling alliance' would have been a good thing in this struggle."

"Do you not think that their defeat in this strike will be a fatal blow to the Brotherhood?"

"No, I will not say that. Labor organizations cannot be killed. They have come to stay. This may be a good thing for the Brotherhood. It may teach them a useful lesson. I think that the end will be that the Brotherhood will either come into the Knights of Labor or will enter into some kind of a contract with them."

Brotherhood Men Denounced.

CHICAGO, April 4.—Advance sheets of the report of the grand secretary of the Order of Railway Conductors, to which allusion was made in these dispatches several days ago, are being sent to-day by order of the executive committee to the general officers of the principal railroads of the country. The report is entirely given up to a scathing indictment of the Engineers' Brotherhood, the members of which are denounced as unprincipled, underhanded and deceitful. Numerous specifications in support of the charges are given, and the report declares that the conductors want no alliance with other railroad men's organizations.

Moulders' Troubles.

PLYMOUTH, Mass., April 4.—The moulders of the Plymouth Foundry company deny the published statement, that the recent decision of the state board of arbitration in the trouble between the company and its employees is satisfactory. The men assert that the board's schedule of prices is unfair, some items being too high and others too low, and averaging seventeen cents less than the figures demanded. It is stated that after the dispute had been referred to the board, Agent Walker cut down the price list previously offered to the men, in order to lower the average should the board recommend a compromise.

Stonemasons Strike.

NEW YORK, April 4.—Sixty masons, employed by Talpin, a contractor, of Mt. Vernon, N. Y., struck, this morning, for \$3.50 per day and nine hours labor after April 1, on every day except Saturday, when they shall work only eight hours.

Mr. Stone's Denial.

CHICAGO, April 4.—General Manager Stone, of the Burlington, has filed in the United States circuit court, a general denial of the charges made by the Chicago, Rock Island & Pacific railway.

DEATH ON THE SCAFFOLD.

Adam Volvovitch Pays the Death Penalty at Wilkesbarre, Pennsylvania.

WILKESBARRE, Pa., April 4.—A big crowd surrounded the prison this morning for the purpose of witnessing the execution of Adam Volvovitch, but Sheriff Search only admitted about two hundred people. The hanging was announced to take place at 11:40. Religious services were held in the cell of the condemned man for nearly two hours, and at 11 o'clock Volvovitch said that he was ready. His arms were soon bound and the march to the yard was begun. His spiritual advisers supported him on either side, prayers being said on the way. The prisoner was then pinioned, the noose adjusted and at 11:21 the trap was sprung. Death resulted from strangulation after the body had been hanging fifteen minutes.

The crime for which Adam Volvovitch was hanged to-day was a cold-blooded and brutal one. A stranger with plenty of money giving him the name of Stanislaus Boski, appeared in the village of Miners' Mills, about three miles from here, on August 17, 1887. He took up his abode with Volvovitch. On the night of the crime the latter persuaded Boski to take a walk with him towards Pittston. When a mile and a half above Miners' Mills, Volvovitch shot Boski three times in the head. He then robbed his victim of his watch, chain, coat and money and left Boski lying on the ground moaning with pain. Boski was found by some trainmen and moved to Miners' Mills, where he died on the following week. The murderer fled to Jersey City, where he was arrested on August 21. He pleaded self-defense, but the evidence was conclusive as to the murder being for the purpose of robbery, and Volvovitch was sentenced to be hanged.

An Insane Mother's Act.

NEW YORK, April 4.—Thelma Sipp, aged thirty-five years, the wife of John Sipp, a German baker, living at No. 169 East One Hundred and Twenty-seventh street, threw her twelve-year-old son from the window of her apartments on the fourth floor this morning to the yard. She then jumped from the window and landed within a few feet of where her son lay. Both are probably fatally injured and are now in the Harlem hospital. The woman is undoubtedly insane.

Kilrain Doing Well in England.

NEW YORK, April 4.—Jake Kilrain in a letter to a friend here says he is doing so well in England he has decided to stay until June. Sullivan, he says, surprised everyone in his fight with Mitchell, and showed that he is not a good knuckle fighter, while his slowness in comprehending the London prize ring rules was the subject of much remark.

Shot His Wife.

BOSTON, April 4.—About 11 o'clock this afternoon John Doyle, of South Boston, shot his wife Ellen at their residence. The woman is seriously injured and will probably die. She was taken to the hospital. Her husband has been arrested. The cause of the tragedy is unknown.

THE BOULANGER CRAZE.

IT IS AGAIN ON IN FRANCE AND ITS SPREAD IS RAPID.

It is Possible for Him to Become the Leader of Men and Measures in France and to Urge the Dictatorship—The German's Caution on the Frontier.

PARIS, April 4.—The recrudescence of the Boulanger craze in France, its rapid spread and the influence it must necessarily have upon the future of the republic, induce the belief that Gen. Boulanger was not only not averse to being removed from the army, but actually shaped matters so that his retirement might be brought about, and in such a manner as to present him to the public as a martyr to the jealousy of the politicians in control of the government.

BOULANGER—SKETCHED FROM LIFE.

Gen. Boulanger, it is argued, was in the power of his enemies as long as he remained in active pursuit of his duties as the commander of an army corps, which fact the treatment he had already received at the hands of these men abundantly attested. He had nothing to hope for under the government, which had gone to the length of its power to humiliate him, nor could he enter upon a political career while he yet remained in the army.

To resign would be an exhibition of cowardice and an admission of the justice of acts of the ministry which practically banished him from Paris, so he set himself at work to provoke the government to depose him from his command and dismiss him from the military service.

The purblind ministers seeing nothing in his acts but defiance, and in their own nothing but retaliation and additional humiliation of their arch enemy, hastened to place a weapon in his hand, with which he has been able to sweep off every one of their heads within a fortnight of his acquiring it. By the stupid action of the government in dismissing Boulanger instead of retaining him and subjecting him to wholesome discipline for his implied contempt of ministerial authority, the popularity of that officer has been very much increased and his power for good or evil enhanced doubly.

He can now, while posing with some degree of truth as the basis of his claims as a martyr to the cause of the democracy of France, enter the chamber of deputies and deliver himself of fulminations against his enemies and bid for increased popular support with entire freedom and with prospects of success that are already appallingly apparent to the short-sighted men, who believed they had effectually removed him from their path when they deprived him of his command.

Gen. Boulanger's splendid abilities as an organizer, have stood him in good stead in his differences with MM. Rouvier and Tirard and their equally weak colleagues, and if in his parliamentary career he shall display a similarly high order of generalship, nothing but his own act can prevent him from becoming the foremost leader of men and measures in France, and if he shall seize the power placed within his reach and usurp the dictatorship, the men whose petty persecutions aroused public sympathy in his favor and made it possible for him to overthrow the republic, will find upon their shoulders a greater burden of the responsibility than they are able to bear.

The members of the new cabinet held a meeting at the Elysee palace, the conference lasting five hours.

Advices from Avricourt say that the German police have increased their precautions on the frontier, and now refuse admittance to every one who is not provided with authority to enter Alsace-Lorraine.

The Amnesty Decree.

BERLIN, April 4.—The amnesty decree applies to Socialists' offenses, excepting those coming under the Socialist law. It also excludes treasonable offenses.

Foreign Notes.

Dr. Mackenzie is expected to leave Berlin in a week.

Prince Ghika has declined to form a Roumanian cabinet.

There is discussion among the Abyssinian chiefs. Ras Agos is in favor of peace, while Ras Alula is using all his influence in favor of war.

Count Thior Karolyi, cousin of the Austrian ambassador at London, has been killed in a duel with Count Gyherky, governor of Novegorod.

The Spanish government and the opposition have agreed upon a bill for the reorganization of the army, providing that service shall be obligatory upon all citizens.

Another of Dr. Hahn's cases of partial excision of the larynx has resulted fatally. These cases are helping to bring about a reaction among medical men in Dr. Mackenzie's favor.

Murderer Maxwell's Case.

ST. LOUIS, April 4.—The refusal of the United States supreme court to reconsider its action in the Maxwell case leaves the little English chloroformer with only one hope, namely, a commutation of sentence from Governor Morehouse. Every effort will now be made by his attorneys and friends to influence the governor to grant the commutation.

A LIMA ELECTION RIOT.

Negroes Vs. Irish—One Dead and Two Seriously Injured—A Lynching Averted.

LIMA, O., April 4.—The election passed off peaceably until the evening about 8 o'clock, when a frightful and bloody riot took place. There has long been a vendetta here between the young Irishmen and the colored men.

The colored men started up street to a saloon kept by Manning Brothers. They proceeded to do up the Irish boys in this place, when they were thrown out and the fight became general on the sidewalk. The negroes pulled out knives, razors and threw stones and began slashing right and left. Patrick Hughes, a boy sixteen years old, was cut four times and died immediately.

Stine Stotzy, another young man, was so badly cut that he is not expected to live, as was also Patrick Clark, another boy. Dave Gallagher was also badly cut trying to quiet the riot. The police arrived upon the scene and arrested three of the offenders, among them the two who did the cutting, William Gorus, Frank Crowder and another, whose name could not be learned.

The murderers were escorted by the officers and a mob of infuriated whites supposing they were arrested, marched to the jail, compelled the sheriff to give up the keys, and searched for them for lynching purposes. In the melee Sheriff Hoagland's assistant, Hunter, received a fearful beating.

The city is wild with excitement, and the murderers will not last many minutes after they are found.

RECORD OF FIRES.

Twenty-Eight Horses Smothered—Guests of a Hotel Narrowly Escape.

CHICAGO, April 4.—Fire in a basement stable adjoining the Adams house at Lake street and Michigan avenue, early this morning, smothered twenty-eight horses and caused a loss of about \$5,000.

The hotel adjoining fortunately had but few guests. Most of these and the servants were stupefied by the smoke and it was only by the greatest exertions on the part of the firemen and the police that all were saved. Among those who had narrow escapes were: Daniel Sweeney and Montague Stapleton, two railroad men; Clark McCullough, the clerk, and his roommate Joseph Williamson, and M. E. Nehle, a theatrical man. Mary Condel and Nellie Carter, two domestics, were dragged from the basement.

A Connecticut Church Burned.

ROCKVILLE, Conn., April 4.—Last night fire destroyed the Second Congregational church, with A. P. Dykinson's hardware store in the basement, and damaged Fitch's block adjoining. The total loss is estimated at \$75,000. The pastor of the church is S. B. Forbes, late Prohibition candidate for governor.

AFTER THE AMERICA'S CUP.

A New Movement in the Construction of Racing Yachts.

ST. JOHN, N. B., April 4.—A movement has been started here for the construction of a yacht to endeavor to wrest the supremacy from the American center board. David Lynch, a shipbuilder, who has built some fast vessels, and has devoted considerable study to yachting, has prepared a model, and it is probable that before long the work of construction of a yacht of its lines will be begun.

The model bears a close resemblance to that of the Volunteer but differs from it in some essential points. It asserted that there will be very little displacement on the new craft and that she will stand up better under a heavy press of canvas than any of the American racers and although no longer, will be able to carry more sail.

Claus Spreckels' Refinery.

PHILADELPHIA, April 4.—It was stated last night by reliable authority that Claus Spreckels, the California sugar king, has decided to build a refinery in Philadelphia, and that the purchase of a site for it on the Delaware river front will be consummated to-day. Mr. Spreckels spent a part of yesterday in consultation with John G. Johnson, relative to the purchase of the site for the refinery. He also conferred during the day with Mr. George Philler, president of the First National bank, Wharton Barker, Isaac Hough and others. It is understood that \$5,000,000 capital will be put into the enterprise, all to be supplied by Mr. Spreckels himself, and that contracts for the erection, machinery, etc., will be placed in a few days.

Almost a Panic.

BRIDGEPORT, Conn., April 4.—While Governor Lounsbury was delivering the opening address at the Grand Army fair in Masonic hall, the floor settled several inches under the weight of the 1,500 persons present. A panic was averted by the presence of mind of the governor, who assured the audience that there was no danger. Many persons left the hall, however. The cause of the scare was the breaking of a top-cap on one of the pillars supporting the floor.

Killed By Lightning.

METAMORA, Ind., April 4.—A. J. Bowman, a farmer, living four miles north of this place, was struck by lightning while lying in bed and instantly killed. His wife was in the same bed, and was not seriously injured. He wore a steel truss, which was hanging on the bedstead near his head, and is supposed to have attracted the lightning. He was a prominent member of the Grand Army of the Republic, and will be buried by that order.

Detectives in a Tight Place.

CINCINNATI, April 4.—Marshal Henry Miley and his deputy, Frank Boyer, from Greenville, O., arrived here this morning with a state warrant for the Detectives Witte, Brown and DeCoursey, who, it is claimed, obtained \$3,500 from and Mrs. Spray, of that place, by false pretenses. In the police court this morning the cases were postponed until April 10. Fred. Witte is not to be found in the city.

Minister's House Robbed.

MARLBORO, Mass., April 4.—Some time last night burglars entered the house of Rev. P. A. McKenna, drilled a hole in the safe, pried open a drawer and took over \$1,000 in bills, representing a portion of the Easter collection of the Church of the Immaculate Conception. A gold watch and chain belonging to Rev. Father Fennessy, was also taken. The police profess to have a slight clue to the burglars.

CARLISLE authorities are enforcing an ordinance against using profane language on the streets.

A proposition to subscribe \$150,000 to the Louisville Southern Railroad has been submitted to the voters of Jessamine County, the election to be held on the 14th of this month.

WILL L. FITCH, of Vancsburg, is suggested as "good Congressional timber" on the Republican side of the woods. Mr. Fitch is a nice clever fellow, but his friends oughtn't encourage him in his Congressional aspirations, if he has any. No nomination the Republicans could make would please the Democrats better.

MCKINLEY'S minority report of the Ways and Means Committee shows how inconsistent the Republicans are on the tariff question. It is in almost direct opposition to their party declarations in favor of "correcting the inequalities" of the present system. In this connection we might add that the Democrats are gaining strength in their fight, and the prospects in favor of tariff reform are brightening.

THE GENERAL ASSEMBLY.

Proceedings of Legislature of Local and General Interest.

Hon. John F. Hager, of Ashland, and Professor H. M. Weaver, of the Southern Business College of Louisville, were appointed a committee to examine the Treasurer's office. They are now engaged in the work.

The bill appropriating \$200,000 to complete the Branch Penitentiary at Eddyville has passed the Senate. The prison is to be completed with this sum, to accommodate 418 convicts. One Commissioner, to be appointed by the Governor and subject to removal by the Executive, is provided, in place of the present board, at a salary of \$250 per month.

The bill incorporating the Mt. Olivet Deposit Bank has passed both houses.

The House has passed a bill making it lawful for any unmarried woman under sixteen years of age to serve as a deputy in the office of County Clerk in Lewis and Henderson counties.

Seventy-six local measures passed the House last Friday.

An amended resolution by Mr. Reed, offering a reward for the capture and conviction of J. W. Tate, was adopted. The amount is \$5,000, and the Auditor is authorized to pay same upon the order of the Governor.

The Senate passed a bill regulating and limiting the amounts which counties in this State may vote to railroads to 4 per cent. of the assessed value of real and personal property. The bill confers no right to vote, but just provides when a vote is taken it shall not be for a greater amount than 4 per cent.

The Governor used his veto prerogative on the bill to furnish all the counties with copies of the General Statutes. His reason was that, under an old law, if this bill was permitted to pass, it would cost the State not less than \$30,000. The veto was unanimously sustained.

Senator R. M. Pieratt, of West Liberty, Morgan County, died Monday, after a brief illness, from rheumatism of the heart. The Senate adjourned yesterday in respect to the memory of the deceased.

OUR NEIGHBORS.

FERN LEAF.

James Graham, of Dayton, Ohio, has been visiting his sister, Mrs. B. F. McIntyre. Miss Mary Collins, of North Middletown, Ky., has been the guest of Miss Julia Worthington for several days. Miss Collins is one of the most attractive ladies Fern Leaf has had the honor of entertaining.

Flour, sugar, coffee and other goods to the value of \$50 were stolen from Cole's store at Dexter a few nights ago.

Resolutions of Respect.

At an especial meeting of our school to take action expressive of our feelings occasioned by the loss of our school mate Scott Cammack it was moved and seconded that a committee of three be appointed to draft resolutions. The following were reported and adopted: WHEREAS, an alwise Providence has seen fit to remove our much-loved schoolmate from earth so suddenly, from a life of joy and happiness, now therefore, as expressive of our love and esteem.

Resolved, That while we recognize the fact that all must die, yet it is sad to follow one so young to the grave.

Resolved, That in the death of Scott our school has sustained the loss of a true friend, a promising pupil, a general favorite.

Resolved, That we tender to her father and to Mr. and Mrs. Worthington and family our warmest sympathy in this their time of affliction.

Resolved, That the Secretary of this meeting forward to the family of which the deceased was a member a copy of these resolutions and that the same be published in the Maysville BULLETIN.

Death of an Ex-Representative of Lewis County.

J. D. Thompson, whose serious illness has been frequently noticed in the BULLETIN, died yesterday afternoon at 1 o'clock at his home in Chester. He had been suffering from consumption for a long while, and his family and friends realized some time ago that the end was near.

The deceased was about sixty-eight years of age. He formerly lived in Lewis, and represented that county in the Legislature for one or two terms some years ago. He was married twice, his last wife surviving him. He leaves several grown children by his first marriage.

Mr. Thompson was a member of Manchester Lodge No. 317, F. and A. M., and his remains will be interred with the honors of Masonry. Confidence and Mason lodges, of this city, will have charge of the services. The funeral will take place at the family residence in Chester to-morrow afternoon at 2 o'clock.

TOBACCO MARKET.

Sales on our market for the week just closed amount to 1,204 hds., with receipts of 499 hds. for the same period. The market has shown more activity during this week and prices have improved some on all grades of burley both old and new. It now seems evident that the preparations for the next planting have been considerably retarded by the decline of February and March. A Negro Killed.

Simon Trite, colored, met with a fatal accident on the Kentucky Central, near Marshall Station, yesterday morning.

A construction train left here early in the day to distribute some new cross-ties along the road. Trite was one of the hands engaged in the work. When last seen, near Marshall, he was seated on top of one of the car-loads of ties. None of the hands witnessed the accident, but it was learned from a party who was working in a field near by that a sudden start of the train caused Trite to lose his balance and fall between the cars. The train was stopped as soon as the accident was discovered, but the unfortunate man was dead by the time his fellow-workmen reached him. Some of the cars had passed over his body near the hips. The remains were shortly afterwards removed to this city. They will probably be taken to Lexington for burial, as his home was in that city.

Why Fortune Smiled Upon Augusta Fileno.

We heard that fortune had bestowed a smile upon Miss Augusta Fileno, 2,037 Archer avenue, Chicago. She was found to be a bright and intelligent German girl, in the employ of the Singer Sewing Machine Company. "Yes, I have been rather fortunate. I held one-tenth of ticket 73,185 in the Louisiana State Lottery costing \$1, the drawing of which took place January 10, 1888, and drew \$5,000. The money was paid promptly. I expect to buy a house for mother and I to live in, and you will know how thankful I am when I tell you that I am mother's only dependence."—Chicago (Ills.) Arkansas Traveler, February 11.

The Manchester (O.) Normal School.

The Manchester (O.) Normal School will open Tuesday, April 24, 1888, and continue ten weeks. Teachers' course and book-keeping specialties. Good advantages in music. Expenses low. Tuition, in advance, \$10; boarding from \$2 to \$3 per week. Write for circulars and make arrangements to attend. Address J. W. Jones, Superintendent of Manchester public schools. 29-2w

The Baptist Meeting.

Rev. Fred Hale preached last night to a congregation which filled the court house. The sermon was an earnest and tender one, and received the closest attention from the large audience present. Mr. Hale will preach again this afternoon at 3 o'clock and to-night at 7:30. All are cordially invited to attend these meetings.

POPULAR prices—15, 25 and 35 cents—will prevail during Cora Van Tassel's engagement at the opera house for three nights next week, opening Monday, April 9th.

The marriage of Mr. George W. Bennett and Miss Jennie Weaver took place last evening at the home of the bride's mother, in Dover. The groom is one of the prominent and well-to-do citizens of that place. He is sixty-nine years of age, and this is his second matrimonial venture.

A SPECIAL says a desperate fight took place Sunday at the mouth of Locust Creek, on the Licking River, six miles from Flemingsburg, between Joseph Owens and Dick Hunt. The men exchanged sixteen shots before Hunt killed Owens. The murderer escaped into Rowan County. Both men had been drinking.

A FORCE of hands is engaged making the repairs and alterations to Mr. Wm. H. Cox's residence on West Second street, lately purchased from the heirs of Dr. James Thompson. The alterations inside and out will be on an extensive scale. Among the changes will be a bay-window and a mansard-roof. It will require several weeks to complete the work.

THE ladies of the Methodist Episcopal Church express their appreciation of the generous patronage given their entertainment on Monday evening at the residence of Charles Phister. The recitations by two of the most accomplished ladies of our community, we understand, were of the highest order. Notwithstanding the unusual lateness of the season Easter lilies sent by a lady from Washington decorated the supper table, which was lit up by numerous candles in antique, but again stylish, candelabra. Proceeds over \$31.

OWENS & BARLEY call the attention of the farmers to the fact that they have the agency for the sale of the celebrated Ross cutters, both hand and power, also lever cutters, which will be sold for less money than they can be bought anywhere else. They have a large stock of "O & B" and Haven's roller and lever cutters at very low prices. Full stock of hoes, rakes, forks, shovels, picks, mattocks, &c., &c. They invite all interested in such goods to call and see them and get prices. Having sold about three hundred plows, they have a few left at low prices.

THE BULLETIN's representative, Colonel Herndon, was an honored guest at the progressive dinner given at "Forest Grove," the home of Mr. and Mrs. Chas. Clarke, Millersburg, on Monday evening preceding the Dobyns-Clarke nuptials. The menu was quite elaborate, embracing nine courses, and was elegant and enjoyable in all its details. The lunch on Tuesday was a sumptuous collation, embracing everything edible from "billion to bonbons." The Colonel acknowledges his indebtedness to Mr. and Mrs. Jefferson for cordial hospitalities. Mr. J. is enclosing his 190-acre farm with wire and picket fence, has built a splendid warehouse, 84x45, of dressed material, and intends to grow fifteen acres of tobacco and prize and ship it and other crops from his new warehouse the coming season.

Amusements.

Farewell appearance of the people's favorite Cora Van Tassel and her superb dramatic company, (previous to her departure for Australia), in a repertoire of popular successes for three nights only, commencing Monday, April 9th, opening in Joaquin Miller's beautiful western romance "The Danites." There will be a change of programme nightly, and popular prices of admission will prevail, viz: 15, 25 and 35 cents. Reserved seats now on sale at Taylor's, without extra charge.

Masonic Notices.

Personal.

Mr. Thomas Phister, of the Maysville bar, is in the city visiting his friend, Mr. W. W. Wiseman.—Danville Advocate.

WASHINGTON NEWS NOTES.

THE CLOSING ANNOUNCEMENT OF THE WOMEN'S CONGRESS.

The Official Correspondence of the Samoan Difficulty Sent to the House by the President—Congress Will Investigate the Burlington Strike.

WASHINGTON, April 4.—The international council of women, which was in session here last week, is closing, makes the public announcement that fifty-three different organizations of women have been represented on its platform by eighty-seven speakers, and delegates from England, France, Norway, Denmark, Finland, India, Canada and the United States. All of these organizations but four are of national scope, and three are of national value.

The subjects of education, philanthropy, temperance, industry, professions, organizations, legal conditions, social purity, political conditions and religions have been discussed. While no restrictions have been placed upon the fullest expression of the most widely divergent views upon these vital questions of the age, it is cause for rejoicing that these sessions, both executive and public, have been absolutely without friction.

It is the unanimous voice of the council that all institutions of learning, and of professional instruction, including schools of theology, law and medicine, should in the interests of humanity be as freely opened to women as to men. That opportunities for industrial trainings should be as generally and as liberally provided for one sex as for the other; and the representatives of organized womanhood in this council will steadily demand that in all vocations, in which both men and women engage, equal wages shall be paid for equal work, and finally that an enlightened society should demand as the only adequate expression of the high civilization, which is its office to establish and maintain, an identical standard of personal purity and morality for men and women.

The Samoan Island Trouble.

WASHINGTON, April 4.—The president has sent to the house the official correspondence between the state department and Germany, growing out of the recent troubles in the Samoan island. The correspondence is voluminous, and all points of special interest have already been published, unofficially.

The last letter of the series, written by Secretary Bayard to Minister Pendleton, on the 17th of January last, summarizes the situation. The secretary says that a conference was held in Washington last summer by representatives of the United States, Great Britain and Germany, to endeavor to agree on a plan of government for Samoa. It was then practically agreed that a new king should be elected according to the customs of the islands. The conference then adjourned to allow the representatives to report to the various governments interested, with the understanding that they should meet again in the autumn. One month after the adjournment the German minister called at the state department and left a memorandum, stating that the German government had declared war against Malietoa.

The forcible installation of the king, the secretary says, was worse than the original proposition by the Germans, which was that the power having the largest business interests in Samoa should appoint the king. In conclusion, he says that he cannot approve the action of the German government in this matter, and while he is willing to accept the explanation that they were influenced by a desire to properly protect the people, he cannot bring himself to believe that their course has been a proper one.

Will Investigate the Strike.

WASHINGTON, April 4.—The house committee on commerce has agreed to Mr. Anderson's substitute to Mr. White's resolution providing for an investigation of the Chicago, Burlington & Quincy railway strike, by a special committee of five to be appointed by the speaker.

The resolution declares that the locomotive engineers now employed are incompetent and that the claim of resumption of public duties by the Chicago, Burlington & Quincy is a fraudulent pretense and a gross imposition upon the public, placing in imminent peril both life and property. The committee is directed to go to the scene of the strike, call for witnesses and papers and investigate and ascertain what is necessary in the way of legislation to protect interstate commerce.

The Vacant Seat.

NEW YORK, April 4.—The Herald's Washington despatch says there excellent reasons for saying that William L. Putnam, of Maine will be tendered a place on the United States supreme bench. The president is said to have been so pleased with Mr. Putnam's conduct of the fishery negotiations that he tendered him the first vacancy among the associate justices, and his friends argue from this that it is unlikely he will be appointed chief justice, as he is as competent to fill the higher as well as the lower position on the bench. If, however, they are mistaken, it is not improbable that Messrs. Field or Miller may be advanced to the chief justiceship and Mr. Putnam given the vacancy thus created.

Accident to a Bicyclist.

WASHINGTON, April 4.—Professor E. A. Paul, principal of the District of Columbia high school, died here this morning of injuries received on Saturday last, while riding a bicycle. The horses became entangled in the wheel and falling rolled over Mr. Paul, who was prostrate on the ground. His spine was broken and other injuries received, from which he died this morning.
